

**Description**

US Digital offers a wide variety of standard linear strips. These products are available in many different resolutions and lengths. The material used is mylar polyester film. This material is very rugged and virtually unbreakable with a wide temperature range of -20°C to +100°C. There is no minimum order.

The mylar linear strips have a thickness of .007" and are cut to a width of 0.700".

Mechanical alignment drawings for optical encoder linear strips and optical encoder modules are available (*see the EM1 and EM2 data sheets*)

This product is RoHS compliant.

US Digital warrants its products against defects in materials and workmanship for two years. See complete warranty for details.

**Index Option**

Number of inches from left side of linear strip.

Text Right Reading Index Pattern on Bottom

Distance to specify when ordering index pattern (to center of index pattern)
